

**Dr. Hrnicek and
Dr. Antonson of
Gastroenterology
Specialties PC come
to JCH&L on a monthly
basis to provide
upper endoscopy and
colonoscopy services.**

Dr. Antonson

Dr. Hrnicek

A colonoscopy is an exam used to detect changes or abnormalities in the large intestine (colon) and rectum. It can screen for colon cancer, and help diagnose intestinal problems.

Upper endoscopy is used to examine the upper digestive system. It can be used to diagnose and treat conditions that affect the esophagus, stomach, and part of the small intestine. (It is sometimes called an EGD.)

*"Our goal is to compliment the already high level of care provided at Jefferson Community Health & Life while serving patients with compassion and excellence."
--Dr. Hrnicek and Dr. Antonson*

**Gastroenterology
Specialties PC
focuses on the
health of the
digestive tract.**
